RE: Corrective Action Plan

Dear Ms. Engelman:

Thank you for your staff's work to ensure that the encounter data files submitted to Myers & Stauffer in December and January have been complete and in the appropriate format. The terms of the corrective action plan (CAP) that was submitted on October 25, 2013, relative to this issue have been satisfied and the CAP will be closed.

The department will continue to monitor the encounter data files and should the issues addressed by the CAP recur, the matter will be reviewed again for potential administrative action.

Should you have any questions, please do not hesitate to contact Michelle or me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mary T. C. Johnson".

Mary T. C. Johnson
Medicaid Deputy Director-Bayou Health
