

Specialized Crisis Counseling Services

Notice of Privacy Practices

After visiting with you a few times, I think I may be better able to help you if I could ask you a few questions. These questions are about your hurricane experience and current concerns affecting your recovery. Louisiana Spirit offers additional counseling services that may help you better cope with your current difficulties and any that may arise in the future. Would you be interested in learning more about these specialized services?

I want you to know that your answers will be kept confidential, and that I will not be passing on this information with your name on it. I'm just trying to get a sense of how difficult things are for you at the moment and if you might benefit from additional Services.

Privacy laws require me to obtain your consent to collect personal information.

I must also let you to know that in Louisiana, if you disclose information involving harm to others, (including children and the elderly, or a plan to harm yourself or others), I have a duty to report this information to the appropriate public agency.

If after the interview, we decide together that specialized services might be beneficial to you, I will require your authorization to discuss a referral with my specialized crisis counseling team.
