The Art of Recovery reception recognizes the talents of Louisiana citizens who live with mental illness and/or substance use disorders and the role that creative outlets can play in the recovery process. The reception will feature artwork by Louisiana citizens who receive care through the Office of Behavioral Health's programs.

We believe it is important to combat misconceptions associated with these individuals by educating our community about how behavioral health challenges affect all people in the community. In 2010, more than 340,000 Louisianians needed treatment for behavioral health challenges. Individuals with mental illness and/or substance use disorders can achieve recovery through a variety of prevention and treatment resources and recovery support programs offered in Louisiana.

Thanks to recovery and treatment options, thousands of Louisianians are living happy, healthy and productive lives.
