John Bel Edwards
GOVERNOR

Rebekah E. Gee MD, MPH
SECRETARY

State of Louisiana

Department of Health and Hospitals

Office of the Secretary

March 4, 2016

The Honorable John Bel Edwards
Governor, State of Louisiana
P. O. Box 94004, Capitol Station
Baton Rouge, LA 70804-4004

The Honorable John A. Alario, Jr. President
Louisiana State Senate
P. O. Box 94183, Capitol Station
Baton Rouge, LA 70804-9183

The Honorable Taylor F. Barras, Speaker
Louisiana State House of Representatives
P. O. Box 94062, Capitol Station
Baton Rouge, LA 70804-9062

Re: Senate Bill No. 689 of the 2004 Regular Session and House Bill 369 of the 2005 Regular Session

Dear Governor Edwards, President Alario, and Speaker Barras:

In response to Senate Bill No. 689 of the 2004 Regular Session and House Bill No. 369 of the 2005 Regular Session, the Louisiana Department of Health and Hospitals (DHH) submits the enclosed report. These bills requires DHH to provide an annual written report to the governor and to the legislature regarding the cost of administering the preferred drug list, including the cost of administering the prior authorization function, the cost of development and maintenance of the preferred drug list and aggregate funds returned to the federal government related to pharmaceutical rebates, and an analysis of utilization trends for medical services provided by the state and any correlation to the preferred drug list. R. S. 24:772 also requires that the report be submitted to the President of the Senate and the Speaker of the House.

The Bureau of Health Services Financing (Medicaid) within DHH is available to discuss the enclosed report and recommendations with you at your convenience. Please contact Germaine M. Becks-Moody, Program Manager 2, at (225) 342-9479 with any questions or comments you may have.

Warmly,

Rebekah E. Gee M.D., MPH
Secretary

EXECUTIVE SUMMARY

Act 395 of the 2001 Regular Session of the Louisiana Legislature amended R.S.46:153.3 (B)(2)(a) and authorized the Department of Health and Hospitals (DHH) to establish a drug formulary utilizing a prior approval process or any other process or combination of processes that prove to be cost-effective in the medical assistance program. The Act also created a Pharmaceutical and Therapeutics Committee consisting of 21 members appointed by the Governor. The list of members can be found at http://www.legis.la.gov/legis/Boards.aspx .

The Committee began meeting in August 2001. On June 10, 2002, the Department implemented a preferred drug list (PDL) with a prior authorization (PA) process and a Supplemental Drug Rebate program through a phased-in approach. The PDL/PA process and accompanying supplemental rebate features were implemented meeting all applicable federal and state statutes.

Subsequently, Senate Bill No. 689 (Act 705) of the 2004 Regular Session of the Louisiana Legislature provides each year the department shall provide a written and public report to the legislature and the governor thirty days prior to the regular legislative session. The report shall cover: (i)The cost of administering the preferred drug list, including the cost of administering the prior authorization function, the costs of development and maintenance of the preferred drug list and aggregate funds, returned to the federal government related to pharmaceutical rebates; and (ii) An analysis of the utilization trends for medical services provided by the state and any correlation to the preferred drug list ***(Appendix 1)***.

Act 177 of the 2005 Regular Session further amended the PDL/PA process. R.S.46:153.3(C) added atypical antipsychotic drug class and the immunomodulator and hepatitis C – specific antiviral drug class and required DHH to include data from these classes with the data collected on all drug classes reviewed on the Medicaid PDL for the annual report to the Legislature and Governor ***(Appendix 2)***.

The program is administered by Medicaid Benefits and Services/Medicaid Pharmacy section of DHH utilizing the services of three contractors: Molina (formerly Unisys); the University of Louisiana at Monroe (ULM), School of Pharmacy; and Magellan Medicaid Administration/Provider Synergies. The PDL/PA process and supplemental rebate system are now fully operational.

Each prior authorization is given for a specific drug for a specific recipient for a specific period of time. In accordance with state and federal statutes, requests must be acted upon within 24 hours. Also, a minimum of a 72-hour supply of a medication may be obtained without prior authorization in emergency situations.

In SFY 2015, ULM processed approximately an average 8,066 prior authorization requests monthly. Listings of those drugs which receive prior authorization requests are included in the Preferred Drug List (PDL)/Prior Authorization (PA) list at **www.lamedicaid.com** and ***Appendix 3*** of this report.

The state received $20,475,014 in supplemental rebates in SFY 2014 and approximately $22,122,774in SFY 2015. Magellan Medicaid Administration/Provider Synergies has projected $2,236,171 in program savings (cost avoidance) for SFY 2016 resulting from market shift and supplemental rebates. More detailed information regarding the PDL, Federal legislation and the financial methodology is available in the body

of the report and in the *Louisiana Medicaid PDL Program Overview and Results, January 15, 2016 r*eport available at
http://new.dhh.louisiana.gov/assets/docs/BayouHealth/P_and_T_Committee/LAM_PDL_Annual_Report_011516_FINAL.pdf

The foregoing is presented as a brief overview. The following is the report with appropriate appendices.

MEDICAID PHARMACY BENEFITS MANAGEMENT PROGRAM

Background

Prior to 2001 Louisiana had an open formulary law which required Medicaid reimbursement of all FDA approved legend drugs, with a few exemptions. The law also prohibited the use of prior or post - authorizations in the pharmacy program. These laws restricted Louisiana's use of management tools available to other states to control costs.

Act 395 of the 2001 Regular Session of the Louisiana Legislature amended R.S.46:153.3 (B)(2)(a) and eliminated the prohibition of utilizing a prescription prior authorization process within the Louisiana Medicaid Program. The law authorizes the Department of Health and Hospitals (DHH) to "…establish a drug formulary that utilizes a prior approval process or any other process or combination of processes that prove to be cost-effective in the medical assistance program…."

Other provisions of Act 395 and R.S. 46:153.3 are:

- Permits DHH to enter into contractual arrangements to perform the prior approval (PA) functions with a school of medicine, a college of pharmacy, the fiscal intermediary for the Medicaid program, or such other qualified contractors that it deems appropriate, within the scope of the PA mandated provisions of federal law.

- Mandates a maximum 24-hour response time on requests.

- Requires that a 72-hour supply of a medication may be obtained without a prior authorization in emergency situations.

- Creates a Pharmaceutical and Therapeutics Committee comprised of 21 members who are appointed by the Governor and confirmed by the Senate. The list of members can be found at http://www.legis.la.gov/legis/Boards.aspx (Medicaid and Pharmaceutical and Therapeutics Committee).

Subsequently, Senate Bill No. 689 (Act No. 705) of the 2004 Regular Session was passed requesting additional information be reported to the Legislature and the Governor 30 days prior to the regular legislative session (***Appendix 1***). Specifically, the report shall cover: 1) The cost of administering the preferred drug list, including the cost of administering the prior authorization function, the costs of development and maintenance of the preferred drug list and aggregate funds, returned to the federal government related to pharmaceutical rebates; and 2) An analysis of the utilization trends for medical services provided by the state and any correlation to the PDL

Act 177 (HB 369) of the 2005 Regular Session and Act 107 (HB 680) of the 2007 Regular Session further amended the PDL/PA process (***Appendix 2***). R.S.46:153.3(C) added atypical antipsychotic drug class and the immunomodulator and hepatitis C – specific antiviral drug class and required DHH to include data from these classes with the data collected on all drug classes reviewed on the Medicaid preferred drug list for the annual report to the legislature and governor.

Program Implementation and Operations

On June 10, 2002 DHH implemented a PDL with a PA process and a Supplemental Drug Rebate program through a phased-in approach. The PDL/PA process and accompanying supplemental rebate feature were implemented meeting all applicable federal and state statutes.

The program is administered by Medicaid Benefits and Services/Medicaid Pharmacy Benefits Management section of DHH and utilizes the services of three contractors: Molina (formerly Unisys); the University of Louisiana at Monroe (ULM), School of Pharmacy; and Magellan Medicaid Administration/Provider Synergies. Services provided by the contractors include:

- Molina (formerly Unisys), the Medicaid fiscal intermediary
  - Technology equipment purchase/installation (with ULM) to support the program
  - Application modifications to the current Medicaid Management Information System (MMIS)
  - Design and implement Wide Area Network (WAN) for ULM
  - Creation and support of new web-based pharmacy PA software
  - Implementation of data research applications
  - Design, install and support a data warehouse
  - SAS training for ULM research analysts
  - Training on Pharmacy PA System (DHH and ULM staff)
  - Training prescribers and providers on the PA process
  - Maintain and support PDL/PA and supplemental rebate systems and operations

- University of Louisiana at Monroe (ULM) School of Pharmacy
  - Provide space, staff, and computers
  - Operate pharmacist-staffed PA desk
  - Provide physician consultations
  - Serve as consultants on the Preferred Drug List and Prior Authorization program
  - Perform DHH directed data analysis and outcome studies

- Magellan Medicaid Administration/Provider Synergies
  - Secure clinical and costing data for drugs in selected therapeutic classes
  - Perform clinical and economic analysis of manufacturer data
  - Negotiate state supplemental rebates with manufacturers
  - Prepare therapeutic class monographs for Pharmaceutical and Therapeutics Committee deliberations
  - Present clinical and costing data to the Pharmaceutical and Therapeutics Committee

The PDL/PA process and supplemental rebate system are now fully operational. Each prior authorization is given for a specific drug for a specific recipient for a specific period of time. In accordance with state and federal statutes, requests must be acted upon within 24 hours. Also, a minimum of a 72-hour supply of a medication may be obtained without prior authorization in emergency situations.

Under the provisions of R.S.46:153.3 (D), the Louisiana Medicaid Pharmaceutical and Therapeutics Committee was established and began meeting in August 2001. The Committee, comprised of 21 members, including physicians and pharmacists, has met quarterly and is responsible for developing the preferred drug list (PDL) in conjunction with the PA process. The Committee reviews clinical and cost data on various therapeutic classes of drugs for recommendation to DHH for inclusion on the PDL or for review through the prior authorization process.

The PDL is updated bi-annually upon DHH's approval of the Committee's recommendations. The PDL is mailed to prescribers and pharmacists quarterly and is also available on the web at www.lamedicaid.com.

PDL/PA and Supplemental Rebate Impact

The Louisiana DHH contracts with Magellan Medicaid Administration, Inc/Provider Synergies to negotiate state supplemental rebates with drug manufacturers for the state (Note: Provider Synergies is a subsidiary of Magellan Medicaid Administration). Based on these negotiations the state received $20,475,014 in supplemental rebates in SFY 2014 and $22,122,774 in SFY 2015. More detailed information is available in Table 1.1.

Savings (cost avoidance) for FY 2015 were approximately $15.56 million. Magellan Medicaid Administration has projected $2,23 million in program savings (cost avoidance) for SFY 2016 resulting from market shift and supplemental rebates. As mentioned previously, Federal legislation was implemented changing how rebates are calculated. The Patient Protection and Affordable Care Act (PPACA), P.L. 111-148, and the Health Care and Education Reconciliation Act of 2010 (HCERA), P.L. 111-152, were enacted on March 30, 2010. Section 2501 of PPACA and section 1206 of HCERA include changes to certain Medicaid drug rebate provisions, effective first quarter 2010. Several of these changes impact the Unit Rebate Amount (URA) calculation for all drugs covered under the Medicaid Drug Rebate Program.

Further, changes by the Louisiana Department of Health and Hospitals in 2012 and 2015 impacted collection of supplemental rebates. In 2012 a portion of Medicaid recipient's coverage for Medicaid pharmacy services were moved from a traditional fee-for-service (FFS) model to managed care organizations (MCOs). In 2015 the majority of the remaining recipients were moved into MCOs. With the shift to MCOs the State continues to be eligible for the collection of federal rebates, however, supplemental rebates have been forfeited, because the MCOs have been permitted to use their own formularies. With the removal of nearly all of the Medicaid lives from the FFS group, overall spend has declined for the remaining lives, but federal and supplemental rebate collections by the state are also reduced.

More detailed information regarding the PDL, Federal legislation and the financial methodology is available in the *Louisiana Medicaid PDL Program Overview and Results, January 15, 2016 r*eport available at http://new.dhh.louisiana.gov/assets/docs/BayouHealth/P_and_T_Committee/LAM_PDL_Annual_Report_011516_FINAL.pdf

Cost of Prior Authorization (PA) Operations

The Medicaid Benefits and Services/Pharmacy Benefits Management program utilizes the services of the University of Louisiana at Monroe (ULM) School of Pharmacy, and Provider Synergies for PA operations. Costs for the contractors' services are found in ***Table 1.2.***

ULM receives and processes all requests. Listings of those drugs which receive prior authorization requests are available at www.lamedicaid.com and included in ***Appendix 3*** of this report. Each prior authorization is given for a specific drug for a specific recipient for a specific period of time. In accordance with state and federal statutes, requests must be acted upon within 24 hours. Provisions are in place whereby an emergency override is allowed for a minimum of a 72-hour supply of medicine. During the most recent two quarters the program has averaged approximately 1,199 emergency overrides per month. Detailed Emergency Override Report is in ***Table 1.3.*** ULM processed approximately 96,792 prior authorization transactions in SFY 2015 and approximately 12,145 in SFY 2016 (as of 12/31/15).

Analysis of the Utilization Trends for Medical Services and the Preferred Drug List

The Louisiana DHH derives savings from the preferred drug list through supplemental rebates and market shift savings. Supplemental rebates are collected from pharmaceutical manufacturers for the inclusion of their products on the PDL. In addition, market shift savings are realized by requiring a prior authorization (PA) on non-preferred products, which results in prescriptions being shifted from more expensive medications to cost effective alternatives. An analysis of the utilization trends for medical services provided by the state and any correlation to the preferred drug list is provided in the *Louisiana Medicaid PDL Program Overview and Results, January 15, 2016 r*eport available at http://new.dhh.louisiana.gov/assets/docs/BayouHealth/P_and_T_Committee/LAM_PDL_Annual_Report_011516_FINAL.pdf

CONCLUSION

The Louisiana Department of Health and Hospitals (DHH) Preferred Drug List (PDL) continues to be successful. The PDL has continued to generate cost avoidance for the state through supplemental rebates and market shift savings. The state received $20,475,014 in SFY 2014 in supplemental rebates and $22,122,774 in SFY 2015. Although, Federal legislation was implemented changing how rebates are calculated, and the movement of coverage for Medicaid pharmacy services from a fee-for-service (FFS) model to managed care organizations (MCOs), resulting in the loss of supplemental rebates, it is anticipated that the state will continue to realize cost avoidance by continuing to participate in the TOP$ program.

APPENDIX 1

ENROLLED

Regular Session, 2004

ACT No. 705

SENATE BILL NO. 689

BY SENATOR JACKSON AND REPRESENTATIVE DURAND

AN ACT

To amend and reenact R.S. 46:153.3(B)(2)(a)(introductory paragraph) and (b) and to enact R.S. 46:153.3(B)(2)(e), relative to the medical assistance drug program; to provide for the utilization of a prior approval process and criteria related thereto; to provide for rulemaking; to provide for an annual report to the legislature and governor; and to provide for related matters.

Be it enacted by the Legislature of Louisiana:

Section 1. R.S. 46:153.3(B)(2)(a)(introductory paragraph) and (b) are hereby amended and reenacted and R.S. 46:153.3(B)(2)(e) is enacted to read as follows:

§153.3. Medical vendor reimbursements; allowable restrictions; peer-based prescribing and dispensing practice patterns; Medicaid Drug Program Committee

* * *

B.(1) * * *

(2)(a) The department may establish a drug ~~formulary~~ **list** that utilizes a prior approval process or any other process or combination of processes that prove to be cost-effective in the medical assistance program. At a minimum any prior approval process shall meet all of the following criteria:

deems appropriate. **The department may, at the expiration of any current contractual obligation, enter into contractual arrangements through a public request for proposal process to perform the development of the preferred drug list.**

* * *

R.S. 46:153(B)(2)(e) is all new law.

(e) Each year the department shall provide a written and public report to the legislature and the governor thirty days prior to the regular legislative session. The report shall cover:

(i) The cost of administering the preferred drug list, including the cost of administering the prior authorization function, the costs of development and maintenance of the preferred drug list and aggregate funds, returned to the federal government related to pharmaceutical rebates.

(ii) An analysis of the utilization trends for medical services provided by the state and any correlation to the preferred drug list.

GOVERNOR OF THE STATE OF LOUISIANA

APPENDIX 2

ENROLLED

Regular Session, 2005

ACT No. 177

HOUSE BILL NO. 369

BY REPRESENTATIVES DURAND, SALTER, ALARIO, DORSEY, HAMMETT, AND KATZ AND SENATORS HINES, BAJOIE, HEITMEIER, AND MOUNT

Prefiled pursuant to Article III, Section 2(A)(4)(b)(i) of the Constitution of Louisiana.

AN ACT

To amend and reenact R.S. 46:153.3(C), relative to the medical assistance program; to remove certain drugs from the exemptions to the preferred drug list with prior approval; and to provide for related matters.

Be it enacted by the Legislature of Louisiana:

Section 1. R.S. 46:153.3(C) is hereby amended and reenacted to read as follows:

§153.3. Medical vendor reimbursements; allowable restrictions; peer-based prescribing and dispensing practice patterns; Medicaid Pharmaceutical and Therapeutics Committee

* * *

C.(1) The department shall not restrict by prior authorization~~;~~ any anti-retroviral prescription drug~~, included in certain therapeutic drug classes, as~~ prescribed and determined by a prescribing practitioner licensed by the state~~;~~ to be medically necessary for the treatment and prevention of HIV/AIDS;. ~~and schizophrenia or mental illness with psychotic symptoms hepatitis C~~

~~(2) Therapeutic classes containing prescription drugs which shall be excluded from any prior authorization provisions shall include the following:~~

~~(b) Immunomodulators and Hepatitis C-specific antiviral drugs prescribed for the treatment of hepatitis C.~~

~~(c) Atypical antipsychotic medications prescribed for the treatment of schizophrenia or mental illness with psychotic symptoms.~~

(2) The department shall not restrict by prior authorization an atypical antipsychotic medication prescribed for the treatment of schizophrenia or mental illness with psychotic symptoms for a Medicaid recipient that has had a prescription for such atypical antipsychotic paid for by Medicaid during the six months prior to the effective date of the class being placed on the Medicaid preferred drug list.

(3) The department shall not restrict by prior authorization an immunomodulator or hepatitis C-specific antiviral drug prescribed for the treatment of hepatitis C for a Medicaid recipient that has had a prescription for such immunomodulator or hepatitis C – specific antiviral drug paid for by Medicaid during the six months prior to the effective date of the class being placed on the Medicaid preferred drug list.

(4) The department shall include data from the atypical antipsychotic drug class and the immunomodulator and hepatitis C – specific antiviral drug class with the data collected on all drug classes reviewed on the Medicaid preferred drug list for the annual report to the legislature and governor as required by Subparagraph (e) of Paragraph (2) of Subsection (B) of this Section.

* * *

Section 2. R.S. 46:153.3(C) is hereby amended and reenacted to read as follows:

§153.3. Medical vendor reimbursements; allowable restrictions; peer-based prescribing and dispensing practice patterns; Medicaid Pharmaceutical and Therapeutics Committee

* * *

necessary for the treatment and prevention of HIV/AIDS, hepatitis C, and schizophrenia or mental illness with psychotic symptoms.

(2) Therapeutic classes containing prescription drugs which shall be excluded from any prior authorization provisions shall include the following:

(a) Anti-retroviral medications, including but not limited to protease inhibitors, non-nucleoside reverse transcriptase inhibitors, nucleoside reverse transcriptase inhibitors, anti-virals, and fusion inhibitors prescribed for the treatment of HIV/AIDS.

(b) Immunomodulators and Hepatitis C-specific antiviral drugs prescribed for the treatment of hepatitis C.

(c) Atypical antipsychotic medications prescribed for the treatment of schizophrenia or mental illness with psychotic symptoms.

Section 3. Section 1 of this Act shall cease to be effective on June 30, 2007. Section 2 of this Act shall become effective June 30, 2007.

Section 4. This Act shall become effective upon signature by the governor or, if not signed by the governor, upon expiration of the time for bills to become law without signature by the governor, as provided by Article III, Section 18 of the Constitution of Louisiana. If vetoed by the governor and subsequently approved by the legislature, this Act shall become effective on the day following such approval.
