RE: Change in minimum stocking requirements

Due to lack of availability, authorized retailers will not be required to stock the 48 oz. single strength juice. The 11.5-12 oz. frozen concentrate juice will continue to be a required item with a minimum stock level of 6 11.5-12 oz. containers.

If you have any questions regarding this memorandum, please contact Denise Harris at 225-342-8905.
