

# Using Your Nebulizer Medicine

## Getting Ready

Step 1

1. Put the nebulizer compressor (machine) on a hard surface and plug machine into outlet.

Step 2

2. Unscrew top of nebulizer.

Step 3

- 3.. Put a dose of medicine in the nebulizer cup.

Step 4

4. Put top of nebulizer back on and turn until tight.

Step 5

5. Put mouthpiece onto nebulizer with valve facing down (outlet away from eyes).

Step 6

6. Press the tubing firmly to the bottom of the nebulizer.

Step 7

7. Attach opposite end of tubing to machine's outlet port.
